Floor drain with bottom / side outlet, DN50, with a plastic / stainless steel frame

The floor drain with a bottom/side outlet and a float is intended for indoor use. It is made with a full stainless steel finish. When the floor level sinks, the NEPTUNE float will block the drain, thus preventing the backflow of stench from the sewer pipe. Made from polypropylene, ABS and stainless steel DIN 1.4301. Load K3 (300 kg), heat resistance up to 70 °C, standard EN 1253.

Part number	Finish	Packaging [pcs/pallet]	Flow rate [l/min]	Weight [kg/pc]	Outlet
420 XL		8/192	29-48	0,53	bottom
